## A full selection wholesaler

We are a serious supplier of parts for your refrigeration plant – "a full selection wholesaler" – supplying parts for applications within the refrigeration industry including industrial plants (ammonia NH3 and CO2).

We offer the widest assortment of compressors in the refrigeration market, and many types of evaporators, condensers, automatic, electronic components and condensing units.

### **Some of the brands we offer are:**

Sabroe / York compressors and JCI parts, Gram parts, Stal parts, Bitzer compressors, Henry Technologies (AC&R), Hansen Technologies, Danfoss, ParkerHerl valves, Tempres pressure gauges, Copeland compressors, Bock compressors, Searle evaporators and condensers, Emicon, Rivacold, and Decsa.

We only supply original manufactured parts and components with manufactures warranty!

Our head office and central warehouse is based in Gothenburg, Sweden. Our national customers we also supply from our sales offices and shops in Malmö and Stockholm.

Our Scandinavian customers are small individual installers, medium sized service/installation companies, contractors, small manufactures (OEM) and all sort of companies involved in industrial refrigeration.

We supply several costumers in Central and Far East Countries as well as shipping companies.  
We will get the parts you need delivered to location you wish.

For general inquiries please contact the Managing Director, or the appropriate contact you find below
